

Union Update Friday December 2, 2011:

Concerning the outstanding bills with Morgan Waldron. Some but not all of the releases that were returned at the end of August are being paid. There were 912 checks sent to approximately 228 different providers. This included the Cleveland Clinic, University Hospitals and their providers. There are still outstanding requests that have not been paid. Our Attorneys will be looking into this Monday.

People with CDL's are receiving paperwork from what appears to be the state of Ohio requesting information. Do not fill out and return this document. FE has a CDL coordinator who handles the paperwork and reporting concerning the federal CDL regulations. FE is checking into this and as soon as we have any information it will be forwarded to the Chief Job Stewards.

Work Safe; follow all OSHS and Company Safety rules.

Have a Merry Christmas and a Happy New Year
